

Comments to the FCC concerning K-Love in Omaha, NE.

I would like to impress upon you the importance K-Love has on our family and to so many others we know in the area. K-Love is the only radio station we as a family listen to in our vehicles and at our home. Our kids have been listening to it for the last four years, and it sure beats anything I ever listened to when I was their age.

K-Love keeps us abreast of what is going on not only in the Omaha area, but also around the country, and their new pieces give us a Christen view on the otherwise construed journalism.

In this day and age, K-Love is a refuge for many people. With terrorism, the war on terrorism, elections, and just over all negative reporting in the world, it is nice to know that those who do not know the Lord, are able to find him on the radio dial.

Please keep K-Love on the radio, not only here in Omaha and Lincoln, but all over the United States. They have millions of financial supporters and we all need to have them on the radio. We as parents need K-Love, and our children need K-Love!!

Sincerely,

Gregory A. Stolp
